[Portfolio ↗](#) [Linkedin ↗](#)

Lead Product Designer with **8+ years** shaping end-to-end product systems across insurance and fintech, from ambiguous 0-to-1 problems to scaled, regulated platforms. I drive alignment across product, engineering, operations, and legal, using data to challenge direction when needed, not just execute it.

WORK EXPERIENCE

Lead Product Designer

Mar 2026 - Present

- Directed the redesign of new car insurance around purchase intent, driving a 3x funnel improvement and taking **entry-to-quote from 21% to 65% within three months**.
- Launched TP Pro, an upgraded third-party renewal plan, to 50% of web and app users, driving **37% adoption over the standard plan**.

Senior Product Designer

Mar 2024 - Mar 2026

- Led end-to-end design of ACKO's first fully digital roadside assistance flow, cutting registration time from **16 to 8 minutes**, weekly calls from **350 to 200**, and lifting custody **TAT to 84% with 22%** digital adoption in phase one.
- Spearheaded an OCR based redesign of policy endorsement, cutting maker-checker **tickets by ~48% and saving ₹3.5 lakh a month**.
- Defined and shipped a guided, video based self-inspection journey, lifting completion to **~60% against a 45–50% benchmark**.

slice

Senior Product Designer

Aug 2021-Feb 2024

- Led end-to-end onboarding redesign for salaried users, taking completion from **45% to 82%**
- Spearheaded 0-to-1 design of the Account Aggregator flow for freelancers, driving application **conversion to 86.5%**.

Product Designer

Feb 2020-Aug 2021

- Led the redesign of the stocks app experience around in-app guidance, **driving a 50% rise in ETF investors, an 11% rise in intraday traders**, and onboarding a third of all Paytm users to Paytm stocks.
- Directed the redesign of Paytm Gold's UI and flow, sharpening the investor experience.

UI/UX Designer

Jan 2019-Feb 2020

- Led the redesign of the feedback screen, driving a **48% increase** in subjective comments.
- Simplified delivery assignment workflow to a single click, cutting average **assignment time by 27.7%**.

Front End Developer

Nov 2017-Jan 2019

- Partnered with product and engineering to migrate the complete Sunbird project from AngularJS to Angular 5.

EDUCATION

Bachelor in technology

IIIT | 2013- 2017

- Did marketing (digital and physical) for Paper Corns, a food delivery startup.
